

Amendments to the Specification:

Please replace the paragraph beginning on line 14 of page 9 with the following:

The position of the guide groove 122 formed at the inside of the lid 31b mounted in the right side of the instrument panel 22, as illustrated in Fig. 3b, is different from ~~that~~ the position of the guide groove 112 formed on the inside of the lid 31a mounted into the left side of the instrument of the instrument panel 22, as illustrated in Fig. 3a. For example, as can be seen by a comparison of Figs. 3a and 3b, the difference in the position of the guide groove 122 of the right side mounting with that of the guide groove 112 of the left side mounting relates to a difference in the distance of the guide groove from an edge or a center of its corresponding lid 31.

Please replace the paragraph beginning on line 25 of page 9 with the following:

The position of the guide protrusion 124 of the knob 34b disposed at the right side of the instrument panel 22, as illustrated in Fig. 3b, is different from ~~that~~ the position of the guide protrusion 114 of knob 34a disposed on the left side of the instrument panel 22, as illustrated in Fig. 3a. For example, as can be seen by a comparison of Figs. 3a and 3b, the difference in the position of the guide protrusion 124 of the right side mounting with that of the guide protrusion 114 of the left side mounting relates to a difference in the distance of the guide protrusion from an edge or a center of its corresponding knob 34.
